**Re: Central Wisconsin Communications, Inc.**  
**WC Docket No. 05-196**  
**Subscriber Acknowledgement Report – Final Report**

Dear Ms. Dortch:

On August 26, 2005, the Federal Communications Commission (“Commission”) released a Public Notice requiring interconnected voice over Internet protocol (“VoIP”) providers to submit updated reports regarding the status of receipt of affirmative acknowledgements by subscribers that they have read and understood an advisory concerning the limitations of their enhanced 911 (“E911”) service.<sup>1</sup> Pursuant to this Public Notice, Central Wisconsin Communications, Inc (the “Company”) submitted an updated report on September 2, 2005 (“Second Report”) and hereby submits the following:<sup>2</sup>

1. Detailed explanation regarding current compliance with the notice and warning sticker requirements *if* the provider did not notify and issue warning stickers or labels to 100% of its subscribers by the July 29, 2005 deadline. Providers expected to update this information include those that were in the process of providing notice and/or stickers to their subscribers, but had not completed the process by July 29, 2005.

As explained in the Second Report, the Company had labels printed that read “E911 service may not function properly or will be limited unless current location is updated at [www.talkwithus.biz](http://www.talkwithus.biz).” The Company sent the labels to customers on September 12, 2005 along with a letter instructing the subscribers to place the labels on their phone or other device that they use to make VoIP calls to remind users of their E911 limitations.

2. Quantification of the percentage of the provider’s subscribers that have submitted affirmative acknowledgements as of September 26, and an estimation of the percentage of subscribers from whom the provider does not expect to receive an acknowledgement by September 28, 2005.

---

<sup>1</sup> See *Enforcement Bureau Provides Further Guidance to Interconnected Voice Over Internet Protocol Service Providers Concerning Enforcement of Subscriber Notification Requirement*, WC Docket Nos. 04-36 & 05-196; DA 05-2358, Public Notice (rel. Aug. 26, 2005) (“Public Notice”).

<sup>2</sup> The Company respectfully requests the Commission to accept this report which is being submitted after the reporting deadline.

In its Second Report, the Company reported that 5 percent of the Company's subscriber base has yet to respond. As of September 28, 2005, 100% of the total number of subscribers have responded.

3. A detailed description of any and all actions the provider plans to take towards any of its subscribers that do not affirmatively acknowledge having received and understood the advisory.

As required in the September 27<sup>th</sup> Public Notice, the Company hereby notifies the Commission that it has achieved 100% compliance.

4. A detailed description of any and all plans to use a "soft" or "warm" disconnect (or similar) procedure for subscribers that fail to provide an affirmative acknowledgement by September 28, 2005.

The Company has investigated the use of a "soft disconnect" for its VoIP customers that do not respond and has found that it is not possible to use such a disconnect process.

Please contact the undersigned with any questions.

Respectfully Submitted,

s/ Leif Street
